There is an incredibly wide range of subjects available for study and identifying the five or six tutorials you would like to pursue can be a tremendous challenge. When making these choices, you should think about your academic requirements and talk to your academic/major advisors. You should also consider taking advantage of unique subject areas of interest to you that are not available at Williams.

Below, is a list of tutorials that Williams students have taken over the past few years. This is not by any means a comprehensive list. It is merely a starting point, and a way to get some ideas without wading through the enormous Examination Regulations Handbook or searching for options online. At the end of this list are instructions for how to explore more broadly for other options on the Oxford University website. There are many topics not listed here that may be available. At the same time, the inclusion of a topic in this list in no way guarantees that it will be available in any given term, or even in a given year.

There are also three fellows associated with Williams who are available to teach tutorials to WEPO students:

Dr. Natasha Simonova is the Rankin Fellow in English. Her focus is English literature, 1550-1830. She is particularly interested in the rise of the novel and women’s writing.

Dr. Dexnell Peters is the Boskey Fellow in History. His research interests span the areas of Atlantic World, Global, Imperial, early American, Latin American and Caribbean History. He is available to teach courses on the General History of the Caribbean, Greater Caribbean, History of the Atlantic World, Age of Revolutions, Comparative Empires, the British Empire, History of Cartography and on the History of Global Capitalism.

Charlotte Elves is the Singer Fellow in Medical Law and Ethics, beginning in Michaelmas 2019. Her thesis focuses on the legal regulation of gene drives in non-human organisms, but her research interests extend into broader questions relating to the role of law regulating the transformative potential and risks of emerging technologies, including the use of Artificial Intelligence in medical treatment.

In this context, “course” refers to a course of study. Oxford students typically spend their entire 3 years as undergraduates studying one “course” (e.g., Economics; Politics; English). When you click on a “course” you should be able to find out about some of the standard “papers” (aka tutorial topics) that are available.

Keep in mind that not all tutorials are available in any given term, or even in any given year. Feel free to list your preferences, but remember that you may need to be flexible if a particular tutorial cannot be arranged.
Doing History at Oxford
Updated April 2019 based on 2018-2019 offerings

Identifying potential tutorials in history requires advanced planning. You may choose from Preliminary Examination courses (typically taken by first-year history students) and Final Honour School (FHS) courses (typically for second- and third-year students). For details about any of these courses, navigate to:
https://www.history.ox.ac.uk/ba-history

Note that Special Subject Papers are not available to Williams students.

You may want to consider the special tutorials of our Boskey Fellow, Dexnell Peters. See his course offerings above for further details.

MICHAELMAS:
- Prelims: British History Periods I–VII
- FHS: British History Periods I-VII; General History Periods i-xix
  Should you wish to take these tutorials, you need to communicate with the Director during the first week of May of your sophomore year. Once you commit to one of these courses there is no backing out. Note that Special Subjects Papers are not available to Williams students.

HILARY:
- Prelims: General History Periods I-IV
- FHS: Further Subjects Nos. 1-35 (see next page). These courses require attending seminar classes and tutorials and are based on primary sources, which are normally to be read over the Winter holiday. Many students have found these courses very rewarding.
  The deadline for registering for Prelim papers is Week 3 of MT. The deadline for FHS papers is Week 0 of MT. Again, once you commit to HT courses you are committed to the course.

TRINITY:
- Prelims: Optional Subjects, Nos. 1-16 (see next page)
- FHS: British History Periods I-VII and General History Periods i-xix
  If you want to take one of these paper options in Optional Subjects, British History, or General History, you must let the Director know by Week 3 of Hilary term and, again, once you do, you're committed.
